What people are saying about Trustmi

Alexander Schuchman

CISO, Colgate-Palmolive Company

"The security assessment that the Trustmi team provided was comprehensive, and we received it in less than two weeks. They delivered strong detection and analytics capabilities as well as deep analysis of our Order to Cash process."

Eddie Borrero

CISO, Leading Healthcare Company

"We are impressed with Trustmi's approach to payment security and its seamless integration. What they are building can really revolutionize how the healthcare industry protects payments and eliminates fraud."

Assaf Rappaport

Co-founder and CEO, Wiz

"The Trustmi team identified an important challenge for businesses everywhere to address. They've built the right product to solve the problems associated with payment security, which is why they stand out in the space."

About Trustmi

Trustmi is the only end-to-end payment security solution that helps businesses protect their bottom line by eliminating the losses from cyberattacks, internal collusion, and human error. Our flexible and modular solution offers businesses full control to use only the tools they need for securing their payment processes and managing their vendors. Trustmi is the preferred solution for leading global businesses that can now successfully secure their payments, avoid losses, and grow their bottom line. Founded in 2021 by Shai Gabay and Eli Ben Nun and backed by top global investors including Cyberstarts and Zeev Ventures, Trustmi is headquartered in Tel Aviv with an office in New York City.
